E.F. Schumacher (1911-1977)

Schumacher developed the set of principles for "human-scale economics"

- 1. Individuals need good work for proper human development.**
- 2. The production from local resources for local needs is the most rational way of economic life.**

WHY INVESTMENT MILES MATTER

FINANCE

GERVAIS WILLIAMS

*"Before buying or selling another share, investors should read Slow Finance...
This well-researched and thought-provoking book is a 'must read' for all serious investors,
especially during these uncertain times."*

Paul Marsh, Emeritus Professor of Finance, London Business School
